

# American Nuclear Society Student Conference 2018

## Sponsorship & Exhibitor Packet

April 5-7, 2018 · University of Florida · Gainesville, Florida

---

## Message from the Co-Chairs

Greetings Potential Sponsors & Exhibitors!

Firstly, we'd like to thank you for taking the time to view our Sponsorship & Exhibitor Packet for the 2018 American Nuclear Society Student Conference! We are looking forward to welcoming the nuclear science and technology community to the Sunshine State in Spring of 2018. The conference will take place on the University of Florida's Gainesville campus from April 5-7, 2018, with the bulk of conference activities taking place at the newly renovated Reitz Union. With a planned attendance of over 500 students and professionals, our program, along with our state of the art facilities gives the 2018 ANS Student Conference the potential to be a great educational and professional development experience for our attendees with your generous support.

The theme of the 2018 ANS Student Conference is Nuclear Equality: In Policy, Energy Access, & the Engineering Community. Our program seeks to highlight issues such as improving the political and economical environment for nuclear energy, nuclear energy's role in providing clean and reliable energy access to those who need it most, as well as providing today's student with the insight to be tomorrow's successful engineer in an increasingly diverse nuclear community. It is our mission to tackle some of the most pressing issues in our field. Your participation as a sponsor or exhibitor will not only help us highlight these issues, but also provide your company or organization with a unique opportunity to engage with hundreds of highly skilled students.

We invite you to review our sponsor and exhibitor options listed in this packet to see if there is an option that suits your company's or organization's needs. We look forward to working with our sponsors and exhibitors and addressing their individual requests and requirements.

Sincerely,

Patrick Moo  
General Program Chair

Zander Mausolff  
Technical Program Chair

Rae Bruendermann  
Conference Logistics Chair

# Benefits of Sponsorship

The ANS Student Conference is the largest single gathering of students in nuclear sciences and technology. The conference provides students with an opportunity for professional development through networking with fellow students, future colleagues, and professionals. The 2018 ANS Student Conference will also give attendees the chance to participate in a wide variety of workshops, ranging from nuclear advocacy to training in the latest computational research methods. Lastly, the ANS Student Conference allows students to gain experience presenting research and effectively communicating their findings.

Over the years, the ANS Student Conference has experienced great success thanks to the sponsors. In return, our conference aims to maximize exposure for sponsoring companies and organizations to some of the brightest and most talented aspiring nuclear scientists and engineers. Our sponsorship options are tailored towards conference visibility of your company or organization. Sponsors can take pride in the fact that they are fostering a forum for the exchange of ideas and forging connections that will last entire careers.

For your company's or organization's investment in the future of nuclear science and technology, we are offering four sponsorship options with varying levels of visibility benefits. Going along with our theme of "Nuclear Equality", these options are given on the next page as "Champion", "Leader", "Advocate", and "Ally". Each option provides sponsoring parties career fair space and a variety of other benefits, including waived registrations, conference program ad space, Lunch and Learn recruiting talks, and for Leader and Champion level sponsors, the opportunity to provide a keynote address at one of three nightly dinners. Exhibitor options are given on page 5.

*ANS Student Conference technical session.*

*Keynote address at the 2017 ANS Student Conference.*

*Exhibitor talking to students at the Career Fair.*

# Sponsorship Options

## CHAMPION

**\$20,000**

\*Career fair tables are 6 ft in length. Tables may be replaced with space for displays or demonstrations. Chairs and tables with linens will be provided.

## Exhibitor Options

In addition to our sponsorship packages, we are also offering four exhibitor options. For those interested in additional exposure, we've provided the option for additional conference registrations and space for an additional career fair table. The two-table option is well suited for companies or organizations who are interested in setting up a display or demonstration by replacing one or both tables with extra space. The career fair will be held all day Friday and Saturday morning for a total twelve hours. For exhibitor options I & II, exhibitors may choose their table location in the exhibit hall. For exhibitors and recruiters looking to make an extra impression on the attendees, our Exhibitor I package has the option to give a Lunch & Learn recruiting talk. Lunch & Learns will last one and a half hours, allowing the recruiter or representative to give a presentation during this time.

**EXHIBITOR I**

**\$10,000**

CAREER FAIR TABLE (2 TABLES)  
WITH CHOICE OF LOCATION

2 WAIVED REGISTRATIONS  
(FULL)

LUNCH & LEARN WITH KEYNOTE  
RECRUITING TALK

## Note on Limited Sponsorship & Exhibitor Benefits

Some benefits listed in the sponsorship and exhibitor packages are limited; therefore, an addendum to this packet will be added to list benefits which are no longer available, as needed. If an event is shown as unavailable in the addendum, then we will work with any potential sponsors and exhibitors to find comparable benefits should the need arise. We encourage our sponsors and exhibitors to select a desired package at their earliest convenience in order to guarantee the listed benefits. Also note that options which include choice of career fair table location will be handled on a first come, first serve basis.

The Sponsorship Packet along with a career fair table layout showing remaining vacant spaces will be updated regularly to reflect any changes and made available on our website at [www.ansstudentconference2018.com](http://www.ansstudentconference2018.com). Choice of technical session, panel, and workshops will be provided once the conference program is finalized.
